Dear Trustees,

Oromahoe Trust – Audit Management Letter

We have completed the audit of your financial statements for the year ended 30 June 2022.

The primary aim of our audit is to form an opinion as to whether your financial statements fairly reflect the results of your organisation's activities for the reporting period and its financial position at balance date. The audit report expresses this opinion.

In forming our audit opinion we conducted detailed tests of selected transactions and reviewed the key controls in place to ensure the effective operation of your accounting systems and internal controls. To ensure you receive maximum benefit from our audit we provide feedback from our evaluation of your systems and highlight areas of possible weakness or where we believe improvements can be made. That is the major purpose of this letter.

Required Communications

As required by the Auditing Standards we affirm that:

- We have had no disagreements with management during our audit nor have we had any serious difficulties in dealing with management.
- We have not identified any instances of fraud involving senior management or any other frauds that have caused a material misstatement in the financial statements.
- We have not noted any significant risks or exposures that are required to be separately disclosed in the financial statements.

We reaffirm we are independent of your organisation, and that we have no relationship with your organisation that impairs our independence.

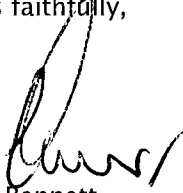

Conclusion

We were pleased to note that we found the records and the financial statements to be of a high standard. We are pleased that we found no procedural matters at this stage. This letter is prepared solely for the use of the Trustees and senior management of Oromahoe Trust. It may not be provided to third parties without our prior written permission.

Thanks to yourselves and to staff who assisted us in the completion of our audit work. Please contact us with your proposed responses to our recommendations and if you have any questions on any issues raised.

Yours faithfully,

Steve Bennett

Notes to the Financial Statements

Oromahoe 18R2B2B2 Trust For the year ended 30 June 2022

1. Reporting Entity

Oromahoe 18R2B2B2 Trust is a Maori Trust originally settled under a Trust Order dated 10 August 1990, pursuant to Section 438(5) of the Maori Affairs Act 1953. The Trust now has Ahu Whenua status under the Te Ture Whenua Act 1993.

2. Statement of Accounting Policies

Basis of Preparation

The trustees have chosen to prepare special purpose financial statements which have been prepared in accordance with the requirements outlined under the Tax Administration (Financial Statements) Order 2014.

The financial statements have been prepared for one or more of the following parties:

- the entity's owners
- Inland Revenue; or
- the entity's financiers.

Historical Cost

These financial statements have been prepared on a historical cost basis, except for certain assets which have been revalued as identified in specific accounting policies below. The financial statements are presented in New Zealand dollars (NZ\$) and all values are rounded to the nearest NZ\$, except when otherwise indicated.

Changes in Accounting Policies

The trust transitioned on 1 July 2021 from preparation of CAANZ Special Purpose Framework for use by For-Profit Entities (SPFR for FPEs) to Tax Administration (Financial Statements) Order 2014 special purpose financial reporting. The transition had minimal impact on the accounting policies of the entity. Any changes are presentational only.

All other accounting policies were applied consistently during the year.

Revenue Recognitions

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services, excluding goods and services tax rebates and discounts, to the extent it is probable that the economic benefits will flow to the entity and revenue can be reliably measured.

Sales of goods and livestock are recognised when the entity has transferred the significant risk and rewards associated with ownership of the goods to the customer.

Interest received is recognised as interest accrues, gross of refundable tax credits received.

Dividends received are recognised on receipt, net of non-refundable tax credits.

Agricultural produce on hand

Agricultural produce, such as wool and other products, is recognised on harvest and is stated at the lower of cost, determined on a first-in-first-out basis, and net realisable value as valued under the Income Tax Act 2007.

Accounts receivable

Accounts receivable are recognised less an allowance for any uncollectible amounts. Individual debts that are known to be uncollectible are written off in the period that they are identified.

Investments

Investments are carried at the lower of cost and net realisable value.

Livestock

Livestock is measured at NAMV as issued by Inland Revenue. Changes in Herd Scheme Value gains and losses are recognised in the livestock revaluation reserve. If the revaluation reserve has a deficit for a type of livestock, that deficit is recognised in profit or loss in the period that it arises. Any revaluation surplus that reverses previous revaluation deficits in subsequent periods is recognised as revenue in the Statement of Profit or Loss. The gains or losses due to livestock number changes are recorded directly in the Statement of Profit or Loss.

Property, plant and equipment and investment property

Property, plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets, and includes the cost of replacements that are eligible for capitalisation when these are incurred.

An item of property, plant and equipment or investment property is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the year the asset is derecognised.

Income Tax

Income tax is accounted for using the taxes payable method. The income tax expense in the Statement of Profit or Loss represents the estimated current obligation payable to Inland Revenue.

Goods and Services Tax

All amounts are stated exclusive of goods and services tax (GST) except for accounts payable and accounts receivable which are stated inclusive of GST.

3. Provision for Beneficiaries

The Trustees have resolved to set aside 10% of the annual Net Profit before Tax, for the distribution to registered shareholders or the immediate family, for the promotion of health, social, cultural and economic welfare, and education.

Opinion

We have audited the financial statements of Oromahoe Trust on pages 6 to 29, which comprise the balance sheet as at 30 June 2022, livestock trading accounts and the statements of profit or loss and changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of Oromahoe Trust in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other than in our capacity as auditor we have no relationship with, or interests in, Oromahoe Trust.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements have been prepared for the; Inland Revenue; and the members. As a result, the financial statements may not be suitable for another purpose.

Restriction on Responsibility

This report is made solely to the Trustees, as a body, in accordance with the trust deed of Oromahoe Trust. Our audit work has been undertaken so that we might state to the Trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Trustees' Responsibility for the Financial Statements

The Trustees are responsible on behalf of the entity for determining that the Special Purpose reporting requirements framework adopted is acceptable in Oromahoe Trust's circumstances, the preparation of financial statements, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

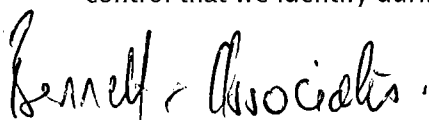

In preparing the financial statements, the Trustees are responsible on behalf of the entity for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (NZ), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- conclude on the appropriateness of the use of the going concern basis of accounting by the Trustees and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. We communicate with the Trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

On behalf of the trustees, it is a privilege to present this 2021-2022 annual report to shareholders. The report considers the activities, outcomes and financial performance of your farm Trust over the period from 1 July 2021-30 June 2022.

COVID-19

In a year that has continued to be disrupted by a global pandemic, seen the establishment of a new COVID-19 variant in Omicron, intensified from having border controls in place restricting entry and exit from Aotearoa, the ongoing traffic light system, proved to be stressful and emotionally overwhelming for most if not all.

The invasion of Ukraine by Russia at the end of February combined eventually to highlight an imbalance in demand and supply, affecting the global and New Zealand economy with uncontrolled inflation, impacting fuel, import and export of goods, immigration, labour and the like.

If that was not bad enough the January to June 2022 year saw the warmest autumn and wettest winter season ever recorded by NIWA.

Despite these severe hiccups we have maintained our role as an *essential* food producer in the primary agricultural sector, and in doing so, responsibly prioritised and safely managed the health and wellbeing of *kaimahi* throughout.

A huge *shout out* and *kia ora* to Lloyd, Dean, Garry and Josh for their unwavering commitment and dedication in ensuring the farm operation ran at optimum performance.

HIGHLIGHTS

GOVERNANCE

- Andrew Drysdale (AG-FIRST) assistance
- Farm staff succession planning underway

FINANCIAL PERFORMANCE

1. Review of stocking policy
 - Reduction in sheep numbers from 1300 (\$216K) to 850 (\$176K), a difference of \$40K.
Labour intensive (drenching, shearing, dagging, tailing)
Wool sales historically volatile and almost economically unviable in covering overheads.
 - To an increase in bull numbers from 800 (\$800K) to 1350 (\$1.26M), a difference of \$450K.

GRANTS POLICY

New funding partnership with Maori Education Trust (MET) boosting distribution amounts by 40%.
Trust total distribution of tertiary grants \$25K, increased by MET contribution to \$35K.

FUTURE CONSIDERATION

Marae and or Community Grants (*in accordance with Trust Order; POWERS; 11 Specific; Clause 20*)

Similar grant as per the Tertiary Education based on a 10% of annual net turnover be considered at the sole discretion by consensus of trustees and by direction of a majority of beneficial owners at a general meeting.

That a meaningful relationship be developed with our Marae trustees to responsibly realise the aspirations of beneficial owners.

(In accordance with Trust Order; Clause 14; To set aside cash reserves)

FORESTRY (*In accordance with Trust Order Clause 8; To sell forest produce*)

The *pinus radiata* forest tender process embarked upon to harvest 24.5 ha has been halted due to ongoing issues around retention of secure overseas markets and prices as already reported due to COVID-19 and associated timings impacted also by unprecedented weather conditions.

The trustees are continuing to monitor the situation and are confident that other opportunities may be available to explore which includes local markets and forest harvesters (Pokaka, Waipapa Milling, Croft Poles, PF Olsen).

Farm Manager – Dean Candy (far right)
Shepherd – Conner Morgan
General's – Gary Smith & Jasper Smale
Farm Advisor - Andrew Drysdale (AgFirst)

The 2021/22 season has been a year of growth, change and development at Oromahoe Trust farm. The internal promotion of Dean Candy to Farm Manager has presented a new and exciting platform to drive the farming business forward and look at how we continue to enhance the existing farming operation through economic growth, environmental protection/kaitiakitanga, and socio-economic outcomes for staff and shareholders.

A strategic shift in the stock policy toward buying in weaner bulls in lieu of bigger bulls has seen another 880 animals purchased this year. We are aiming to finish approximately 700-750 bulls per year with replacements purchased as weaners. This enables more structure and planning to the farming operation, in addition to matching smaller classes of stock to the more sensitive parts of the whenua, and matching seasonal pasture growth with feed demands.

The sheep policy has remained largely the same this year, with just over 850 lambing ewes aiming to produce approximately 1200 lambs annually. The sheep play a significant role in managing the pasture on the more sensitive hill country areas of the farm where bulls would have a significant impact on erosion prone soils. Sheep have also provided strong financial returns over the last three seasons and provide diversification of revenue streams for the Trust.

Farm Environment Plan

The environmental pou of the Whenua Advisory Service provided input into the creation of the Farm Environment Plan. Following this, over 5km of waterway fencing has been targeted to complete, as well as the protection of wetlands and 5.4 hectares of marginal land identified for retirement into native/indigenous planting, pictured below.

(Retirement of 5.4ha of erosion prone land planted into native – July 2022)

We plan to continue to improve the farm environmental footprint through:

- Fencing off all-waterways from cattle.
- Riparian planting of waterways with native tree species
- Enhancing the existing pest-control programme and look for ways for more community involvement
- Awareness and improvement of Green House Gas footprint through becoming more efficient with livestock emissions, and potentially offsetting some of our emission output through afforestation (native, exotic, or agro-forestry)

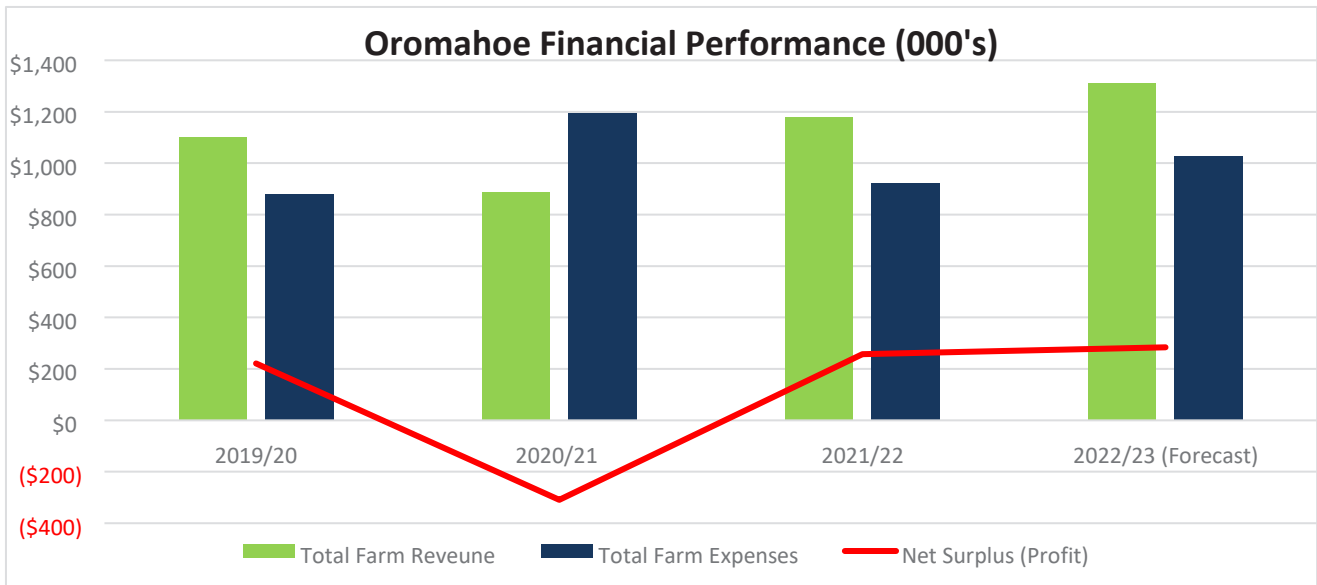

Farm Performance

Strong commodity prices across both lamb and beef markets provided good return from livestock sold. Lambing percentage was slightly below historic average, but sale dates and strong commodity prices off-set this with higher returns than the two previous years. Bull carcass weights have also been higher than historic averages as well as strong pricing providing record returns.

Farm Financial Results

(000's)	2019/20	2020/21	2021/22	2022/23 (Forecast)
Total Farm Revenue	\$1,100	\$887	\$1,181	\$1,310
Total Farm Expenses	\$878	\$1,196	\$923	\$1,026
Net Surplus (Profit)	\$221	-\$309	\$257	\$284

Notes:

- Total Farm Revenue is taken from financial statements and includes sources of off-farm income (rebates, rent received etc), and stock re-valuations.
- Total Farm Expenses includes all working and non-working expenses (depreciation etc).
- Net Surplus is reflective of financial statements and includes livestock adjustments.

The financial performance of the Trust is forecasted to continue to lift with the increase in stock numbers and high commodity prices. The 2021 financial year was a combination of a bad drought and rebuilding of stocking numbers, compounded with high repairs and maintenance costs and capital spend on fencing and capital applications of fertiliser.

The 2022 financial year was a continuation of building stock numbers and a shift in the livestock buying strategy. Farm working expenses have reduced to a more sustainable level moving forward,

and an awareness of inflating farm input costs such as fuel, fertiliser and labour & materials is driving better spending decisions.

The improved 2022 financial result and forecast financial performance is largely driven from:

- Increasing sub-division and water, which in turn improves utilisation of pasture grown and eaten.
- An improved focus on strategic buying and selling times with livestock markets.
- Increased focus on improving lamb weaning weights through better genetics and growth rates.
- A focus on animal health with regular drenching and awareness of lameness/sickness and minimising animal losses.
- Prioritising farm working expenses and ensuring we are keeping on top of major costs (i.e. not letting the repairs and maintenance and get away on us).

The 2023 forecast is based on purchasing another 750 weaner bulls to grow through to 2-yr old and the improvement of genetics and lamb growth rates at weaning. Farm working expenses include development areas, addressing deferred maintenance, and improving soil fertility.

Moving Forward

The farm has been through a challenging wet winter which Dean and the team have managed well. Livestock condition and stocking rates are above last season's performance which will place the farm in a good position to make the most of the strong forecast returns from beef and lamb in the coming season. If current prices hold through to November/December, when most sales occur, then this will result in income being significantly better than budget.

Further development plans are underway to improve areas of the farm, including 'Bruces' area with an additional 5Km of internal subdivision and water. This will improve pasture utilisation and livestock growth rates, especially through winter and summer.

The Trust continues to explore opportunities to diversify and enhance the existing farming operation. Some of these opportunities include:

- **Growing Maize** - This aligns with a more holistic approach of the whole farming business as well as providing better pasture and financial return for the farm.
- **Horticulture & Water Storage** – We have identified areas of the Whenua that may be suitable for growing production horticulture/vegetables. We will look to progress investigations around the feasibility of this and hopefully secure funding through MPI or Te Puni Kokiri to assist us with this.
- **Afforestation** - Continue to explore the opportunity to look at 'most-suitable' land use based on limitations of land. This would provide multiple benefits through income diversification, emissions offset, bio-diversity improvements, and environmental footprint.

3. Only one grant can be awarded to a recorded shareholder per year. Either an:
 - Over 60 Years of Age.
or
 - Educational. Being Tertiary or School; (Secondary or Intermediate/ Primary)
4. A recipient of an Under-Graduate Tertiary Grant can only receive three grants, unless they are the shareholder. In other words, after a shareholder's recipient has had three successful grants that shareholder may apply for another recipient but not the person who has had three grants. However, if the shareholder wants to apply for him/herself then he/she may receive as many grants as accepted. Grades must satisfy the Trustees that progress is being made in the course. I.e. At least a pass in half of papers taken. All grants are taxed, and beneficiary should declare to IRD for a refund if required.

7. Once qualified for an Over Sixty Years of Age Grant this will be paid automatically for rest of the shareholders life, to the bank account supplied in the application form, unless:
 - The shareholder makes application for an education grant. Which if successful would disqualify the shareholder for an Over 60s Grant for that year. If the education grant is unsuccessful then the Over 60s grant will be paid. The next year if no education grant is received then the Over 60s will be reactivated and paid.
 - The shareholder vests their shares. If shares are transferred to a Trust a trustee can make an application for the previous shareholder to receive a grant if the Trust Order allows this.
 - Cousins, Nieces and Nephews cannot be recipients and are to be declined so that person can make application in their own right. Whangai up to the individual shareholder - Trust to put that person forward. (refer 2005 AGM resolution)
8. Closing date for Grant applications are 31 March and grants will be paid in April or May.
9. Special Grants will be paid out of the shares held by the Trustees called Putea shares. These grants are for special projects. To apply for a special grant please put in writing what the grant is for, amount required, and why the Trustees should allow Grant. Someone may be required to attend a meeting to support the application.
